

The Institution of Fire Engineers Canada Branch

The Institution of Fire Engineers – Canada Branch
cordially invites you to attend our Continuing Professional Development Seminar

The Institution of Fire Engineers – Canada Branch is proud to be hosting this professional development seminar, focusing on the complete system of fire protection and emergency response at the Woodbine Racetrack facility in Toronto, Ontario. There were major changes and upgrades to horse racing facilities following a tragic fire in 2002 that brought fire protection in barns at race facilities to the forefront.

Come and see what is now in place behind the track.

The Fire Protection Systems of Woodbine Racetrack

as part of our Continuing Professional Development Program
(2.0 CPD Hours)

Woodbine Racetrack
